

Attention Parents! Sick Child Policy

Because we are all susceptible to catching the flu, colds, and other viral infections the following policy is in place:

If your child has been in contact with someone who has a *communicable illness themselves, or is exhibiting one or more of the following symptoms; we cannot permit them into the classroom at this time.

- Fever
- Yellow or Green Drainage from the Nose and/or Eye
- Vomiting
- Diarrhea
- Open/Bleeding Wounds (Including bloody diaper rash)
- Swelling/Redness in/or Surrounding Eye

Thank you for helping us not spread infection to the children and volunteers of Crossroads.

*Examples of communicable illness: Chicken-pox, Measles, Ect.

Please be aware that many of these illnesses carry an incubation period. If there is ANY chance that your child has been exposed within the last week to an illness, please do not place your child in the class today. This is for your child's protection as well as others.
