

May 19 - June 9

Our mission is to Love, Connect, and Serve on the Journey with Christ...but what does that journey look like? What does it entail? How do you know where you are on that journey? Is there a map? What is the next step to take? We are seeking to help answer those questions and more in our class called **"The Journey at Crossroads"**.

Pastor Jason will walk us through our Vision and Mission statements, outlining how those help us determine what we do and what we don't. We will also specifically dig into how God has uniquely wired and gifted you to be vital to what God is doing in our midst. There will be practical elements of who, what, why, and how to give clarity and perspective helping you determine your next step.

This is a 4-week class where you can learn, ask questions, and connect with others!
